6th Generation[®]

Let us take you to new heights...

COMPANY PROFILE

World Outdoor Fitness™ is a proudly South African company with a level 1 BEE rating, that in April 2011 introduced a new and exciting concept which offers an innovative way of keeping fit and healthy, at the same time as having fun. World Outdoor Fitness™ uses a mixture of outdoor gyms, playground series and BOOT CAMP equipment.

Vision: World Outdoor Fitness's vision is to make the outdoor workout and playground experience accessible to every individual and every family.

Mission: We know that each facility has unique needs and we provide the tools to reach them. Our aim is to contribute to the upliftment of communities by introducing state of the art outdoor exercise equipment for adults and children, while creating and maintaining green environments. We provide facility owners and managers with a wide range of fitness solutions, customisable options and technological advancements that make their outdoor spaces stand out and their businesses thrive.

We are World Outdoor Fitness for a reason: Helping people live healthier lives is what we do and the devotion to that goal starts with our brand and products. World Outdoor Fitness is the leader of the outdoor fitness and play industry. Our fitness products have a reputation for being durable, reliable and on the cutting edge of both technology and design. We are proud of our experience and our history as an outdoor fitness and playground industry pioneer with hundreds of units installed throughout South Africa. But there is more to it than that, our duty to exercisers whether novices or workout veterans, is to give them the choices they need to improve their lives. Choices on how they want to work out, choices that make fitness engaging and exciting. When users enjoy the workout experience they get better results.

Products and Solutions: At World Outdoor Fitness product development is done with both the facility owner and exerciser in mind. We improve so that they can improve. Over the past few years, building on our experience, our product offering has developed and expanded exponentially.

World Outdoor Fitness is not just about fitness hardware. From helping the facility owner to design and visualise with CAD drawings and 3D illustrations to creating state-of-the-art technology solutions for exercisers to engage and connect with their fitness and play equipment in ways that would never have been previously dreamt of. Attention to the Journey pillars of variety, social interaction, progression & environment create a facility that is inviting, outstanding and exciting.

Our company philosophy: Quality First, Innovation First and Service First. And with a proven track record of outdoor gyms and playground projects as per our project highlight list, we live up to that philosophy every day. Our quality products are proven to withstand the test of time and our customers receive after sale service for years after installation is completed.

SERVICE, MAINTENANCE, INSPECTION & CERTIFICATION

Service

Requirements for servicing of fitness machines and equipment are almost none as the machines are designed as vandal proof and for heavy duty use. Closed attachments prevent any unauthorised handling that could put safety in jeopardy.

Maintenance

Regular maintenance: 6 months following the handover of machines we will revise the gym free of charge and make sure the required servicing of individual machines, as necessary is done. We will notify you well in advance prior to the scheduled revision date. You will get the revision report as a standard.

The revision covers:

- > Verification of attachment firmness
- > Verification of firmness and tightening of all joints and connections
- > Inspection of covers (and their replacement/installation if necessary)

Annual revision - guaranteed supervision

For the long-term use of machines, trouble-free operation of the whole fitness park and also to keep the warranty valid, we recommend you contact us to carry out revision every 12 months following the start of operation.

Spare parts

For all fitness machines we supply a complete assortment of original spare parts and provide warranty as well as after-warranty servicing.

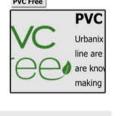

Our promise of quality and robustness is not just words. We give our clients up to 5 years warranty, so you can have peace of mind. With each installation our clients get a certificate of warranty that promises the best after sales service and availability of original parts, that will keep your outdoor gym in mint condition for years to come.

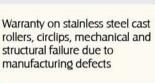

Look for our logo quality assurance stamp on each of the items.

WARRANTY

Warranty on steel posts and center structure pole mechanical and structural failure due to manufacturing defects

Our promise to quality and robustness is not just words. We give our clients up to 5 years warranty ,so you can have a piece of mind. With each installation our clients get a certificate of warranty that promises the best after sales servise and availablity of original parts, that will keep your outdoor gym in mint condition for years to come.

World outdoor fitness industry leadership, efforts and experience have culminated in the technologically advanced line of outdoor gym equipment. The Outdoor Gym 6th generation brings you the best and most durable outdoor gym in the market to date.

Here are some of the innovative upgrades on our 6th Generation^o

- > High impact resistance LLDPE plastic.
- > New high viscosity electro-static powder coating.
- > Concealed mechanisms to limit unauthorized access.
- > Safe stop mechanisms from 1 to 3 way to prevent injuries.
- > Ergonomic improvements for a more effective workout.
- > 5 way support and security for accessories.
